2652

DATE MAILED: 10/07/2005

Please find below and/or attached an Office communication concerning this application or proceeding.

Office Action Summary	Application No. 10/602,598	Applicant(s) TAKESHIMA ET AL.	
	Examiner Brian E. Miller	Art Unit 2652	

-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☒ Responsive to communication(s) filed on 14 July 2005.
- 2a) ☒ This action is **FINAL**. 2b) ☐ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

Disposition of Claims

- 4) ☒ Claim(s) 5-9 and 17-25 is/are pending in the application.
- 4a) Of the above claim(s) 18-24 is/are withdrawn from consideration.
- 5) ☐ Claim(s) _____ is/are allowed.
- 6) ☒ Claim(s) 5-9, 17 and 25 is/are rejected.
- 7) ☐ Claim(s) _____ is/are objected to.
- 8) ☒ Claim(s) 5-9 and 17-25 are subject to restriction and/or election requirement.

Application Papers

- 9) ☐ The specification is objected to by the Examiner.
- 10) ☒ The drawing(s) filed on 14 July 2005 is/are: a) ☐ accepted or b) ☒ objected to by the Examiner.
Applicant may not request that any objection to the drawing(s) be held in abeyance.. See 37 CFR 1.85(a).
Replacement drawing sheet(s) including the correction is required if the drawing(s) is objected to. See 37 CFR 1.121(d).
- 11) ☐ The oath or declaration is objected to by the Examiner. Note the attached Office Action or form PTO-152.

Priority under 35 U.S.C. § 119

- 12) ☐ Acknowledgment is made of a claim for foreign priority under 35 U.S.C. § 119(a)-(d) or (f).
- a) ☐ All b) ☐ Some * c) ☐ None of:
1. ☐ Certified copies of the priority documents have been received.
 2. ☐ Certified copies of the priority documents have been received in Application No. _____.
 3. ☐ Copies of the certified copies of the priority documents have been received in this National Stage application from the International Bureau (PCT Rule 17.2(a)).
- * See the attached detailed Office action for a list of the certified copies not received.

Art Unit: 2652

This is a CON of 09/842,139 and claims 5-9, 17-24 are pending and claims 18-24 have been previously withdrawn due to a restriction requirement.

Double Patenting

1. Applicant is advised that should claim 9 be found allowable, claim 25 will be objected to under 37 CFR 1.75 as being a substantial duplicate thereof. When two claims in an application are duplicates or else are so close in content that they both cover the same thing, despite a slight difference in wording, it is proper after allowing one claim to object to the other as being a substantial duplicate of the allowed claim. See MPEP § 706.03(k).

Drawings

2. The replacement drawing sheets were received on 7/14/05. These drawings are not acceptable, or to be more accurate are not entirely accepted. (a) Figures 1 & 2A, 2B, 2C are acceptable, however, figure 3 is not. As set forth below, in the 112 (1) rejection, FIG. 3, e.g., FIG. 3C, appears to include new matter, such that the original disclosure is considered to support only having either a convex or concave pattern, but not having both, i.e., "a combination thereof".

*It is further noted that in applicants' priority document, i.e., JP 2000-189192, FIGs. 2 & 3 are present which support the disclosure as originally filed, and which drawings should be present in the instant application for completeness. In addition, a FIG. 2 (filed 6/21/04) was submitted in the parent application 09/842,139, but has not been submitted with the current CON application herewith.

Corrected drawing sheets in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. Any amended replacement drawing sheet should include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is being amended. The figure or figure number of an amended drawing should not be labeled as “amended.” If a drawing figure is to be canceled, the appropriate figure must be removed from the replacement sheet, and where necessary, the remaining figures must be renumbered and appropriate changes made to the brief description of the several views of the drawings for consistency. Additional replacement sheets may be necessary to show the renumbering of the remaining figures. Each drawing sheet submitted after the filing date of an application must be labeled in the top margin as either “Replacement Sheet” or “New Sheet” pursuant to 37 CFR 1.121(d). If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

Specification

3. The disclosure is objected to because of the following informalities: (a) in the amendment under “BRIEF DESCRIPTION OF THE DRAWINGS” a brief description of figures 3A, 3B, 3C, 3D, 3E and 3F should be added; (b) the convexes or concaves as shown in the FIGs. Should be labeled appropriately with reference numerals for clarity.
4. The specification is objected to as failing to provide proper antecedent basis for the claimed subject matter. See 37 CFR 1.75(d)(1) and MPEP § 608.01(o). Correction of the

Art Unit: 2652

following is required: the language “the pattern is at least one of formed in or formed of the cured resin,” cannot be found in the specification.

Appropriate correction is required.

Claim Rejections - 35 USC § 112

5. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

6. Claims 5-9, 17, 25 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. (a) claim 5 recites “the print-receiving layer has a pattern of concaves, convexes, *or a combination thereof...*” (emphasis added by Examiner). This constitutes new matter, since only the embodiment of having convexes or concaves, e.g., see page 19, lines 19-21, and the drawings (2 & 3) in the priority document 2000-189192, has been sufficiently described in the specification. There is no disclosure of having *both*, i.e., a combination of both convexes and concaves in a print-receiving pattern. After seeing the proposed new drawings, especially FIG. 3, the Examiner’s interpretation of a “convex” and “concave” has been modified since, it is now realized that a convex is a “projection” above the plane of the main surface layer, and a “concave” is a “depression” or “recess” below the plane of the print receiving layer. The new

Art Unit: 2652

matter rejection has been modified appropriately. Claim 9 has similar language and falls similarly.

Claim Rejections - 35 USC § 112

7. Claim 8 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. Claim 8 recites “wherein the difference in height of the concaves and convexes...” is misdescriptive, since if only convexes or concaves are present, there would be no “difference” as claimed. Clarification is necessary

Response to Arguments

8. Applicant’s arguments and amendments to the claims, filed 7/14/05, with respect to claims 5-9, 17, and the art rejections under Fujio (JP 2000-57635), have been fully considered and are persuasive.

A...With respect to the 112(2) rejection, the Examiner still maintains that the specification may not sufficiently support the as pending claims. For a full description thereof, see paragraph 6, *supra*.

B...The drawings remain an issue and careful examination of applicant’s priority document(s) and the parent application, reveal inconsistencies with the instant application and they must be resolved before passing this application to issue.

Conclusion

9. This application contains claims 18-24 drawn to an invention nonelected with traverse in the paper filed on 12/6/04. A complete reply to the final rejection must include cancellation of nonelected claims or other appropriate action (37 CFR 1.144) See MPEP § 821.01.

10. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

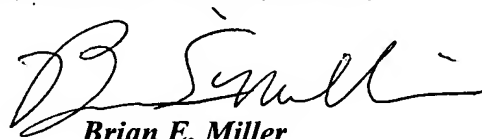

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.

11. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Brian E. Miller whose telephone number is (571) 272-7578. The examiner can normally be reached on M-TH 7:15am-4:45pm (and every other friday).

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Hoa T. Nguyen can be reached on (571) 272-7579. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
